Sir:

The attention of the U.S. Patent and Trademark Office is hereby directed to the references listed in the attached Form PTO/SB/08A. Copies of the listed references are enclosed. Applicants are submitting the cited references out of an abundance of caution and without admission that the cited references are, or are considered to be, material to patentability.

References 1-11 are English language abstracts of Japanese patent publications. Reference 1 was cited in an International Search Report of a corresponding PCT application (the ISR is included as reference 16). References 2 through 14 were previously identified in the "Translation of an Office Action of Japanese Patent Office" (from counterpart application 2001-500405) submitted in an Information Disclosure Statement on January 30, 2003. Reference number 4 was inadvertently misidentified in said translation as Japanese Patent Laid-open No. 2-509010; the correct number is 2-209010. Applicants are submitting Japanese language versions of references 12-14. See MPEP § 609 III.A.(3). References 13 and 14 were inadvertently misidentified in the above-mentioned translation of the Japanese Patent office action as Japanese Patent Laid-open Nos. 61-133830 and 57-148231; those references should have been identified as Japanese Utility Model Laid-opens.
